

QUALITY POLICY

OUR MISSION

Satisfy the needs of our customers with quality products manufacturing examination lamps and surgical aspirators that meet the expectations of our customers.

OUR POLICIES

CUSTOMER FOCUS	Through our commercial department, ORDISI remains attentive to the needs of our customers and we focus on ensuring that our products meet their expectations.
OUR PRODUCTS ARE SAFE AND EFFECTIVE	Through risk management and applying the regulations that affect the electromedical sector, ORDISI manufactures safe products for our customers.
QUALITY: EVERYONE'S COMMITMENT	We have the support and commitment of the Management. The Management guides and involves everyone, acting as the main DRIVER in achieving quality objectives.
THE IMPORTANCE OF THE TEAM	We operate the equipment and facilities in a way that guarantees the safety of our personnel and respect for the environment.
CREATION OF SYNERGIES	We have a work system with a multidisciplinary team so that, through different fields of knowledge, ORDISI can achieve the objectives it sets.

QUALITY + MANAGEMENT = SUCCESS	The success of our company is the result of the trust placed in it by our clients. Managing all our interrelated processes as a system allows us to optimize them towards achieving our goals.
WE IMPROVE WHEN IT IS NECESSARY	We operate in a sector in continuous technical and regulatory evolution, always adapting to changing circumstances. We accept this challenge but we try to be self-critical, to identify our weak points and take advantage of all opportunities for improvement, always with caution and when necessary.
OUR DECISIONS ARE BASED ON DATA	We use the "feedback" of information from our processes to guide us in the decisions we must make, always taking into account the objectives set and the mission of the company.
WE ARE NOT ALONE!	We maximize our efficiency and create value by having a wide network of contacts and external collaborations, always observing the utmost professionalism.
