

## DATA SHEET FLH2431

FLH-2 A LED CON SOPORTE A RAIL  
Lamp FLH-2 model rail holder with LED bulb

| CARACTERÍSTICAS TÉCNICAS |                                                           | TECHNICAL CHARACTERISTICS  |
|--------------------------|-----------------------------------------------------------|----------------------------|
| Fuente de luz            | LED                                                       | Light Source               |
| Temperatura de color     | 5000 °K                                                   | Colour temperature         |
| CRI                      | > 96                                                      | CRI                        |
| Intensidad lumínica      | 1m - 10.000 lux<br>0,75m- 25.000 lux<br>0.5m – 40.000 lux | Luminous intensity         |
| Vida media LEDs          | 50.000 h                                                  | Lifetime                   |
| Diámetro campo a 1 m     | Ø 120 mm                                                  | Light field diameter to 1m |
| Voltaje                  | 95-240 V                                                  | Voltage                    |
|                          | 50-60 Hz                                                  |                            |
| Potencia                 | 10 W                                                      | Power                      |
| Peso                     | 6 kg                                                      | Weight                     |
| Montaje                  | Rail                                                      | Mounting                   |
| Dimensión de embalaje    | 49 x 22 x 11 cm                                           | Packing size               |
